be there™.

# Why Use Beam Smart Presence™?

BeamPro™ is the premier Smart Presence™ System. Going beyond traditional video conferencing products, Beam removes the constraints of a screen by coupling high-end video and audio with the freedom of mobility. This combination provides a rich experience that connects people in ways no other tool can offer.

## Complete Awareness
Two wide-angle cameras, and a custom microphone array, immerse users in his or her remote environment.

## Stay Connected
Join your team anytime from anywhere, no appointments needed.

## Total Independence
Break free from the conference room wall. Face-to-face interaction happens everywhere; be part of it.

## Expand Your Reach
Welcome distant clients, employees and teammates to your workplace effortlessly.

## Interact Effectively
Enjoy true face to face conversation that is clear, crisp, and natural.

# What's included in The BeamPro System?

## The BeamPro Smart Presence™ System (SPS)

The SPS is a communication tool remotely* controlled by a person who wishes to explore and interact with a distant location.

*Requires 802.11 a/b/g/n 2.4GHz or 5GHz WiFi network (5Ghz Recommended) or 4G LTE for connectivity. For more information see our Beam® Requirements Guide

- Dimensions: 62 inches high, 15 inches wide, and 25 inches deep
- Two wide-angle video cameras enable a field of view of 105 degrees, with 3X digital zoom, and 480P video quality
- Custom echo-canceling microphone array with adaptive noise reduction and full duplex audio for various environments
- 17 inch (4:3) LCD Display
- Powerful direct-drive motor capable of traversing ADA compliant ramps.
- Front loud speaker capable of producing sounds up to 90 dB
- Two dual-frequency 802.11 a/b/g/n wireless radios
## The BeamPro Dock

The Dock is where the SPS charges between uses. It's powered by a standard 120V outlet. The SPS, once near, will recognize the dock, where our assisted docking system helps you quickly return the Beam for charging.

## The Beam App

A personal computer or laptop is required to access and control the SPS. Drive a BeamPro from anywhere an Internet connection is available.

Software requires Windows 7 (or higher) or OS X 10.7 (or higher) for use. A wired internet connection is highly recommended.
